

PRACTICE QUESTION (1)

Sue has two cats.

Each cat eats $\frac{1}{4}$ of a tin of cat a day.

She buys 8 tins of cat food.

Has Sue bought enough cat food to feed her 2 cats for 14 days?

You must show how you got your answer.

.....

PRACTICE QUESTION (2)

Work out $3\frac{1}{3} \div 4\frac{1}{4}$
