Here are the ingredients needed to make a tray of 20 flapjacks:

200 g of margarine
250 g of oats
200 g of sugar
100 g of flour
3 tablespoons of syrup

Kelly needs to make 50 flapjacks for a party.

How much flour does she need?

Use a reverse calculation to check your answer.

		$\times 2$	$+10$	
No. of flapjacks	20	40	50	
Flour (g)	100	200	250	
		$\times 2$	$+10$
